

## **Environmental Policy**

### **Carbon Management Statement of Commitment**

Community Safety Glasgow (CSG) is committed to reducing carbon emissions and protecting and enhancing the environment. CSG recognises that its use of energy impacts on the overall energy use of Glasgow City Council and is committed to limiting those impacts where possible.

As well as using energy more efficiently CSG will reduce environmental emissions associated with travel (including employee travel to work and business travel) and will promote and encourage recycling within its premises.

#### ***Community Safety Glasgow's Carbon Management objectives:***

- Commit organisational resources to energy management (Carbon Management Working Group)
- Minimise CO<sub>2</sub> emissions
- Reduce energy costs
- Minimise environmental impact
- Reduce environmental impact of fuels used by reducing emissions
- Report performance changes and improvements annually
- Increase staff awareness of the need to save energy and encourage staff to play a part in reducing emissions
- Support the objectives of the Council's Carbon Management Plan and Energy Policy
